ACKNOWLEDGEMENTS

It gives me pleasure to present my seminar report on “EMAIL AUTOMATION FOR GREETING EMPLOYEE”. No work, however big or small, has ever been done without the contributions of others. First of all I would like to thank supreme power the Almighty God who is obviously the one has always guided me to work on the right path of life. Without his grace this project could not become reality. Next to him are my parents, whom I am greatly indebted for me brought up with love and encouragement to this stage.

I would like to express deep gratitude towards Prof. Fenil Khatiwala (Assistant Professor, Dept. of CE & IT, CGPIT) who gave me their valuable suggestions, motivation and the direction to proceed at every stage. I would also like to express my same gratitude to Prof. Purvi Tandel (Head of Department, Dept. of CE & IT, CGPIT). They are like beam of light for us.

The internship opportunity I had with IBN technologies was a great chance for learning and professional development. Therefore, I consider myself as a very lucky individual as I was provided with an opportunity to be a part of it. I am also grateful for having a chance to meet so many wonderful people and professionals who led me though this internship period.

I express my deepest thanks to Mr. Amol Pomane (Manager of Digital marketing, IBN technologies) for taking part in useful decision & giving necessary advices and guidance and arranged all facilities to make life easier. I choose this moment to acknowledge his contribution gratefully.

It is my radiant sentiment to place on record my best regards, deepest sense of gratitude to Mr. Vinit Brahme, Ms. Sonali Konge, Mr. Mangirish Mate, Mr. Harshal Borole, Ms. Deepali Patil and Ms. Sefali Koli for their careful and precious guidance which were extremely valuable for my study both theoretically and practically.

I have tried my level best to make this seminar report error free, but I regret for errors, if any.

■ABOUT THE ORGANIZATION

IBN Technologies Limited is an outsourcing service provider with a customer base covering USA, UK, Middle East and India.

IBN provides Application Development, end-to-end consulting in information technology products and services through flexible cost and efficient off-shore resource based delivery models. Broad IT services include:

- Designing and developing new applications
- Enhancing existing applications
- Integrating existing and/or newly built applications
- Software Consulting
- Application maintenance and support services
- Products and solutions for travel/hospitality industry
- XML feed integrator – Product to connect two different Databases
- PMRS – Online Portfolio Management System

Other services include Hedge Fund, Finance & Accounting, Cloud Service, and BPO/KPO etc.

History

IBN processes are ISO 9001:2008 quality certified. It was established to become the most sought multi service provider by way of consistency in delivering quality and value multiplying services within the constraint of time and capital under the arc of compliance to regulations concerned.

Where did I fit in the organization?

I was in the DM department in the organization as a Web Designer and a Graphic Designer.

My mentor was Mr.Vikas Mehta who is the Director of the company.

About the job

I worked on different projects like:

- www.cloudibn.com : It includes various services like Cloud Server, Dedicated Server, CDN, Remote Management, and Enterprise Email, VAS (Click2Call, SMS2Call, BulkEmail, and Email2Fax etc.)

I used HTML5 and CSS3 as the main domain and it was made in WordPress. My main part was to code and design the pages. Also I used Photoshop to depict the working of a particular service.

- www.ibntech.com: It included unit testing and making of creators, which are nothing but an image with a tagline describing the particular product or service.

- <https://leadsly.io/> : It is website in which we can create personal brand on LinkedIn, Meet new people & build professional relationships, Greet Personally and Enhance your credibility in your industry

Specifics

- Tools

Main tool used was Photoshop in designing the banners, making creators and also wordpress for creating landing pages and blogs.

LEARNING

During my internship, I acquired new knowledge on WordPress which is one of the largest CMS written in PHP with different types of plugins like visual composer and thrive page builder were the main components I worked for. I was working for Landing Pages, Sales Pages and Blogs. Even revamping of existing pages was done by me. Overall, it was a good experience working there and share a sense of responsibility. I also learnt with how to work in corporate world, how to work according to a client's requirements.

Photoshop which is a photo editing software used by designers to design the images. Banners designed for Blogs & Landing Pages and small icons for other.

HTML5 and CSS3 which are the advanced versions of HTML and CSS.

Overall, it was a good experience working there and share a sense of responsibility. I also learnt with how to work in corporate world, how to work according to a client's requirements.

The whole internship of five months was quite beneficial in terms of acquiring knowledge and tried to give the best of what I could.

■ MONTHLY REPORTS:

1st Month (1st Jan 2017 to 31st Jan 2017)

- Training on Wordpress(2 days).
- Training on Photoshop(2 days).
- The total work of website.

PROJECT

4.1 Email Automation for Greeting Employee

We Observed in our company that HR has tight schedule and in that tight schedule she needs to get some time for greeting employee, i.e., when they join- welcoming employee, birthday and work-anniversary. All these needs graphics and even graphic designers are busy too. So for saving time this website is been made specially for HR.

4.2 Flow of Project

First, HR needs to login on login page than a option page will appear, after clicking on any of the option like welcoming employee, a new form page will be opened after which HR will fill the details and will get a new page as edit profile where HR may edit the form, then after submitting a new template will be generated. The same procedure can be applied to other greetings.

4.3 Snapshots

➤ Login Page

➤ New-Employee

The screenshot shows a web-based form titled "IBN® Welcome To IBN". The form consists of several input fields:

- First Name: [Input Field]
- Last Name: [Input Field] (This field is empty and has a red border, indicating it is required.)
- Upload Image: [Input Field] (Shows "Choose File" and "No file chosen")
- Email: [Input Field]
- Skype: [Input Field]
- Education: [Input Field]
- Department: [Select Box] (Set to "ALL")
- Designation: [Input Field]
- Comments: [Text Area]

At the bottom of the form are two buttons: "RESET" and "SUBMIT". A validation message "Please fill out this field." is displayed next to the empty Last Name input field.

■ CONCLUSION

This report has concluded that the work of HR is been minimized and there would be no need of graphics designer. In future scope, we can add more random templates for birthday and work anniversary. Even we can add more data into database for more use.
